VIC166H: Conducting Research in Philosophy

Major Resources for Conducting Research in Philosophy

The Oxford Dictionary of Philosophy

An online dictionary that you can consult for concise, authoritative definitions of unfamiliar names and terms in the field of philosophy.

The Stanford Encyclopedia of Philosophy

A peer-reviewed online encyclopedia including nearly all areas of philosophy. It is a great place to begin your research and develop background knowledge of a particular philosopher or philosophical position.

Each entry has an extensive bibliography with recommended resources for further reading and potential sources for your presentation or essay.

The Oxford Handbook of Virtue

This volume provides a representative overview of philosophical scholarship on virtue. It is divided into seven parts: conceptualizations of virtue, historical and religious accounts, contemporary virtue ethics and theories of virtue, central concepts and issues, critical examinations, applied virtue ethics, and virtue epistemology.

Also available in-print at the E.J. Pratt Library.

Oxford Bibliographies: Virtue Ethics

A bibliography is a list of the books of an author or publisher, or on a specific subject. Oxford Bibliographies, compiled by scholars and librarians, contain extensive lists of annotated titles on many topics within the study of virtue ethics and moral theory. It is a great way to find authoritative sources on your topic.

Each subject contains an extensive introduction (which provides an overview of the topic) as well as a list of annotated titles of books, arranged by category.

Philosopher's Index

The most current and comprehensive bibliography of scholarly research in philosophy. It is a great place to search for journal articles and book chapters when doing more in-depth research.

You can use it to find books and articles that have been written on a specific topic, or to see all the work done by a particular author.

LibrarySearch

A single integrated search platform for books, articles, periodicals, primary sources, and other materials.

It provides links to full texts of ebooks, journal articles, and book reviews (which can help you assess the relevance and quality of a particular title to the topic of your research).

Major Resources for Conducting Research in Other Disciplines

This course requires you to search a number of major research resources in various disciplines to find

VIC166H: Conducting Research in Philosophy

Published on E.J. Pratt Library (https://library.vicu.utoronto.ca)

sources related to the topic of your presentation or essay.

You are also encouraged to support your arguments with Canadian data whenever possible.

For instance, if your assigned topic is "food and virtues," consult the resources listed under both *Canadian Studies* and *Food Studies*, in addition to the library catalogue.

- Canadian Studies
- Environmental Studies
- Food Studies
- Indigenous Studies
- History
- Political Science
- <u>Sociology</u>
- · Women and Gender Studies.

Additional resources in other disciplines are listed on the (University of Toronto Libraries' website.
